

REGEN Medical RCT

ReGen RCT is the most powerful medical grade focused EnergyWave that activates the bodies own healing properties for a faster more complete healing

RCT THERAPY

Regenerative
Musculoskeletal
Healing

REGENERATIVE CELLULAR TECHNOLOGY

NO NEEDLES | NO SURGERY | NO DRUGS | NO DOWN TIME

What ReGen RCT EnergyWave Therapy does

Better Blood Flow
More Oxygen
ED Treatment

Collagen Stimulation
Cellulite Reduction

Breaks down
Calcium Deposits

Activates Stem
Cell Growth

Reduces
Cellular
Inflammation

How ReGen RCT EnergyWave Therapy Works

The RCT concentrated energy wave is generated by the pulse electromagnetic effect through the metal film in water. After this pressurized energy wave enters the human tissue, causing an electroporation response at the cellular level, its physical characteristics such as stress effect, cavitation effect, piezoelectric effect, can cause the microbubble function of human tissue to occur. Micro and low-energy waves can cause improvements in biological mechanisms such as the microcirculation system of human tissues and the pain nervous system, dredge the veins, induce cell and nerve regeneration, promote blood vessel expansion and regeneration, increases ATP activity, repair damaged tissue cells, calm pain and block nerve endings, loosen soft tissue adhesions to improve human biological function. The ReGen RCT EnergyWave device promotes longevity and greater overall health and wellness efficiently and effectively. The RCT is a medical grade mobile device and the most powerful, versatile AI driven energy wave available.

Parts of the Body that can be Treated

Knee

Elbow

Shoulder

Back

Wrist

Feet

ReGen RCT EnergyWave Treatments

Most Powerful EnergyWave.
Deepest Therapeutic Penetration
Greatest Cellular Level Regeneration
Fastest Healing

Benefits of the ReGen RCT EnergyWave Technology

"The Gold Standard for Patient Treatment"

Treats The Root Cause of Pain

ReGen RCT technology is both diagnostic and therapeutic in nature. When administered over damaged tissue, the treatment will elicit a response from the patient, indicating that you're treating the right area.

Reduces Pain & Inflammation

ReGen RCT penetrates deep into the tissue and modulates the inflammatory response of the cells within the injured area and reduces pain by 70%-90% after the first treatment.

Restores Mobility

ReGen RCT causes a rapid reduction of inflammation, thus the patient benefits from an increased function and range of motion many times after the first treatment.

Promotes Long-Term Healing

ReGen RCT technology stimulates, activates and recruits resident stem cells to effectively heal the damaged area and produce lasting results.

30 Minute Treatments

ReGen RCT is a simple in-office treatment that takes only 30 minutes and can be performed by a trained staff member. Patients heal faster and clinicians benefit from increased revenue without clocking additional office hours.

Induces Antibacterial Effect

ReGen RCT induces an antibacterial effect to help prevent and successfully treat infection and long Covid19 symptoms.

Drug & Surgery Free

ReGen RCT technology is a non-invasive treatment that doesn't require the use of drugs or injections

Improves Blood Flow & Circulation

ReGen RCT technology improves blood supply and oxygenation. Studies show a 250% increase in small, medium and large blood vessels following treatment.

ReGen RCT Energy Wave Technology

Efficacious Musculoskeletal Healing

MEDICAL GRADE. POWERFUL.
FOCUSED. MOBILE. NON INVASIVE.
COST EFFECTIVE. PATIENT FRIENDLY.
EASY TO USE. VERSATILE.
BEST IN CLASS.
